

APPROVED PRODUCTS FOR PASSOVER 2023

WARNING

There is no kashrut supervision of the 'Kosher for Passover' section in supermarkets and errors do sometimes occur. When purchasing products for Pesach from any non-supervised establishment, you are advised to check that all items bear a reliable kosher l'Pesach hechsher and do not contain kitniyot.

KEY

D	Dairy (non-supervised milk) and suitable for Passover
P	Parev and suitable for Passover
NP	Not suitable for Passover
KLBD-P	KLBD certified for Passover
S-CY	Supervised Chalav Yisrael by other Authority
S-P	Supervised for Passover by other Authority

BABY MILKS

Kosher l'Pesach baby formula is sold in kosher stores. In cases where this cannot be used, the following are approved. Separate utensils should be used as baby milks, including Kosher l'Pesach baby formula, commonly contain kitniyot. Since feeding bottles normally come into contact with chametz, it is recommended to purchase new ones for Passover.

Alpro Soya

P	Growing Up Contains Kitniyot
---	---------------------------------

Aptamil

Listing refers to powder and ready to feed versions in bottles and cartons.

#### **DAIRY ALLERGIES**

*For advice about milk substitutes which are permitted on Pesach for children with dairy allergies, see the FAQ's on our website or alternatively email [info@kosher.org.uk](mailto:info@kosher.org.uk) or call 020 8343 6247.*

#### **EGG ALLERGIES**

*For information about egg substitutes which are permitted for those who are allergic to eggs, please contact KLBD by emailing [info@kosher.org.uk](mailto:info@kosher.org.uk), or call 020 8343 6247.*

#### **FRESH PRECUT FRUIT & VEGETABLES**

*Precut fresh fruit and vegetables are not approved due to the fact that Citric Acid (potentially of Chametz origin) is commonly used to prevent discolouration.  
There is no problem with precut fresh herbs or herbs grown in pots.  
Chopped herbs should be avoided as they cannot easily be checked for infestation.*

#### **FROZEN FISH**

*Frozen fish, whole or filleted, is permitted, provided that no other ingredients have been added. It is advisable to rinse the fish before use.  
Please note that when buying fish from a non-supervised source, it is important to make sure that some skin is attached. For a list of kosher fish, see The Really Jewish Food Guide or check [www.isitkosher.uk](http://www.isitkosher.uk).*

**FROZEN FRUIT**

*Unsupervised frozen fruit should not be used because factories may use ascorbic or citric acid as a processing aid, which is often derived from chametz sources.*

**FROZEN VEGETABLES**

*Unsupervised frozen vegetables should not be used. This is because many factories use starch or citric acid during processing, and some process chametz products on the same lines.*

**GLUTEN FREE MATZO**

*Gluten free matzos are available from many kosher shops. Please note that only gluten free oat matzos are Hamotzi and suitable for the mitzva of matzo at the Seder. Matzos made from potato flour are NOT suitable for this purpose.*

**MINERAL WATER**

*All still bottled water and naturally sparkling water is fine. Artificially carbonated water may be carbonated with CO2 from the brewing industry and should be avoided unless specifically approved. The following products have been checked by the KLBD.*

**Acqua Panna**

S-P                      Natural Spring

**AQUA Carpatica**

S-P                      Sparkling  
S-P                      Still
