

KLBD APPROVED PRODUCTS FOR PESACH 2024

WARNING

There is no kashrut supervision of the 'Kosher for Passover' section in supermarkets and errors do sometimes occur. When purchasing products for Pesach from any non-supervised establishment, you are advised to check that all items bear a reliable kosher l'Pesach hechsher and do not contain kitniyot.

BABY MILKS

Kosher l'Pesach baby formula is sold in kosher shops. In cases where this cannot be used, the following are approved. Please note that unless specified otherwise, the listing refers to baby milk powders. Separate utensils should be used as baby milks, including Kosher l'Pesach baby formula, commonly contain kitniyot. Since feeding bottles normally come into contact with chametz, it is recommended to purchase new ones for Pesach.

DAIRY ALLERGIES

For advice about milk substitutes which are permitted on Pesach for children with dairy allergies, see the FAQ's on our website or alternatively email info@kosher.org.uk or call 020 8343 6247.

EGG ALLERGIES

For information about egg substitutes which are permitted for those who are allergic to eggs, please contact KLBD by emailing info@kosher.org.uk, or call 020 8343 6247.

FRESH PRECUT FRUIT & VEGETABLES

Precut fresh fruit and vegetables are not approved due to the fact that citric acid (potentially of chametz origin) is commonly used to prevent discolouration. There is no problem with precut fresh herbs or herbs grown in pots. Chopped herbs should be avoided as they cannot easily be checked for infestation.

FRESH & FROZEN FISH

*It is preferable to buy fish from a kosher licensed fishmonger. If this is not possible, one may buy fresh or frozen fish from a non-supervised source, provided some skin (bearing easily detachable scales) is still attached. It is advisable to rinse the fish thoroughly before use. For a list of kosher fish, see *The Really Jewish Food Guide* or check www.isitkosher.uk.*

FROZEN FRUIT

Unsupervised frozen fruit should not be used because factories may use ascorbic or citric acid as a processing aid, which is often derived from chametz sources.

FROZEN VEGETABLES

Unsupervised frozen vegetables should not be used. This is because many factories use starch or citric acid during processing, and some process chametz products on the same lines.

GLUTEN FREE MATZO

Gluten free matzos are available from many kosher shops. Please note that only gluten free oat matzos are Hamotzi and suitable for the mitzva of matzo at the Seder. Matzos made from potato flour are NOT suitable for this purpose.

MINERAL WATER

All bottled, still water is approved. Carbonated water should only be purchased if bearing a kosher l'Pesach hechsher or listed as approved for Pesach.
